### Turner, Mason & Company Appointments

Turner, Mason & Company made the following appointments effective June 1, 2007.

**John R. Auers, P.E.**, is named Senior Vice President. John leads the firm's work in the preparation of **THE OUTLOOK**, a 20-year forecast of crude and refined products prices and supply/demand balances worldwide. He works closely with numerous oil company clients and the financial community specializing in economic analyses, crude and feedstock supply studies, petroleum products pricing and facility modeling. He worked in Exxon's U.S. refining system for several years prior to joining Turner, Mason in 1987. He holds a B.S. in Chemical Engineering from the University of Nebraska, an MBA from the University of Houston and is a Licensed Professional Engineer (Texas).

**Thomas R. Hogan, P.E.** is named Senior Vice President. Tom manages the firm's alliance with *Platts Oilgram* to develop and maintain eight worldwide regional refinery models and monitor supply patterns in worldwide refining centers. He also leads the firm's practice in the area of fuels specifications and compliance and is the lead consultant with the Reformulated Gasoline Survey Association which conducts gasoline specification surveys throughout the U.S. Prior to joining TM&C in 1989, Tom was employed by Mobil Oil and Husky in a number of technical and commercial capacities. He holds a B.S. in Chemical Engineering from Michigan State University and is a Licensed Professional Engineer (Texas).

**James W. Jones, P.E.** is named Senior Vice President. James headed operations and planning at LaGloria Oil & Gas Company for many years before joining Turner, Mason in 1994. He leads assignments that involve refinery process technology selection and design, independent engineer services, strategic capital investment studies, project management and petroleum economics. He has served as a panelist in a number of industry forums including NPRA refinery and petrochemical sessions and has presented papers at several industry meetings. Recently, Jim reviewed the project implementation plans of several large scale refinery projects. He holds a B.S. in Chemical Engineering from the University of Texas (Austin), an MBA from the University of Texas (Tyler) and is a Licensed Professional Engineer (Texas).

**Charles L. Miller, P.E.** is named Vice President. He has over 35 years of petroleum industry experience and leads the firm's gasoline program attestation practice. Charlie has extensive experience in industry studies involving economic, national policy and regulatory issues and consults with numerous clients in the area of fuels compliance. Prior to joining Turner, Mason Charlie held various technical, planning, administrative and operational positions with Gulf Oil, Texas City Refining, Hill Petroleum and Amerada Hess. He holds a B.S. in Chemical Engineering from Texas A&M University and is a Licensed Professional Engineer (Texas).

Turner, Mason & Company provides engineering and management consulting services for the petroleum and petrochemical industries. Located in Dallas, Texas and founded in 1971, the firm serves a wide variety of clients including integrated oil companies, petroleum refining and marketing companies, domestic and foreign crude producers, petroleum industry associations, financial institutions, investment bankers, petrochemical companies, government agencies, attorneys, utilities, individual and institutional investors and various industry groups.
